

Marrutt 230gsm Archival Matt Single Sided

marrutt.com/mattss

Paper Description

The popular Marrutt 230gsm Archival Matt Single Sided paper has a pleasing semi-stiff feel with a bright white, super-smooth reflection free surface. The advanced matt coating provides exceptional image quality in colour and black & white and gives pin sharp image / font reproduction. Used by numerous high-end professional photographers and designers worldwide.

Paper Handling:

Unless the paper is loaded in the printer about to be used, your paper should ALWAYS be kept in its box with the lid on. In use, avoid touching coated surface before & after printing and wear cotton gloves if necessary.

Storage advice:

The paper should be kept indoors in a dry environment away from extreme temperatures. The recommended storage temperatures are 15° to 25° C (60° to 77° F) and / or in the dark, with humidity being low, from 40 to 60 percent. Prints should be allowed to dry in air, ideally left uncovered for 24 hours. In cases where stacking is unavoidable, a paper / tissue interleaf should be placed between each sheet.
